COMPANY PROFILE

Rogol Electric Company Limited was founded more than 50 years ago. We are a privately owned Canadian Electrical Contracting firm offering a full range of services for the public and private sectors. We continue to be true to our founding principles of customer service and professional excellence. This

is demonstrated by our ability to complete projects efficiently, on time and budget, while never compromising quality of workmanship and design. Rogol's team, driven by excellence, has completed over 50 million square feet of industrial, commercial, institutional, and retail business.

OUR SERVICES

Serving the industrial, commercial and institutional markets, we have worked on projects ranging from service calls to projects exceeding five million dollars. These projects have been completed on time, on budget and with the highest quality workmanship.

**Electrical Construction • Communications
Maintenance and Service • Design/Build
Life Safety Systems • Energy Management**

OUR TEAM

Over the past 50 years, Rogol has formed an exceptional team of dedicated construction experts, many who have been with the company for more than 25 years. Their dedication and strong commitment to quality and workmanship has created a solid relationship with our customers. Our team keeps up-to-date with industry technical information

to provide the customer a cost effective design solution. Each of our senior staff members has over 25 years of experience in Estimating, Project Management and Design Build projects. Experienced inside staff work closely with our IBEW Local 353 certified electricians and apprentices to ensure a quality project.

HEALTH AND SAFETY POLICY

Rogol Electric Company Limited is committed to placing accident prevention among our paramount objectives. We continuously provide a safe and healthy environment for all of our employees, to identify hazards and minimize risks. We expect every manager, supervisor and worker to contribute to a safe and healthy workplace, by ensuring all legislative requirements are understood and observed. This improves the quality of life for all employees.

We recognize the responsibility of sub-contractors

and their workers to meet or exceed requirements as specified above.

Our policy is to perform all work in the safest and most efficient manner possible, consistent with the Occupations Health and Safety Act and Regulations, the current Electrical Construction and Maintenance Worker's Safety Manual, and agreement between the I.B.E.W. and E.C.A.O.

Rogol has received numerous awards for its "zero frequency of injuries", and continues to strive for a safer workplace.

DATA COMMUNICATIONS

Rogol Electric Company Limited has been providing communications cabling infrastructures for many years. We have a highly qualified team of experts, who can provide solutions for organizations of all sizes, from small networks to campus wide environments.

We provide our customers with quality designs that meet their requirements. Each product comes with a

15 - 20 year warranty, based on the system installed. Our skilled technicians install all components per the manufacturers specifications. Once the installation is complete, all cables are inspected, tested and a certification report is created for the customer. All Rogol designed and installed cabling systems provide the customer with performance and reliability for years to come.

SERVICE

Customers across the GTA depend on Rogol for service and maintenance of office buildings, factories, institutions, and many other properties. Our team has been providing customers with the very best service and maintenance for over 50 years. With a fleet of fully stocked service vehicles, we can arrive at your

building promptly and ready to do the job, day or night.

Rogol provides efficient, reliable and high quality service. We pride ourselves on establishing and maintaining long-term relationships with our customers — many have been repeat service and maintenance customers for 50 years.

SAMPLE PROJECTS

Over the past 50 years Rogol has completed over 50 million square feet of industrial, commercial and institutional work. Some of these contracts include; tenant improvements, office buildings, hospitals, shopping centres and medical centres.

Our diverse experience allows us to deliver on projects

that range from The Metropolitan Toronto Forensic Sciences building to a state-of-the-art, one million square foot industrial facility. These projects were delivered on time and on budget. Below are some examples of what we've done for other clients; some of the many ways we could assist you on your next project.

Bloorview Children's Hospital

architects **Parkin Architects**
engineers **L.K.M. & Partners Inc.**

Upgrade emergency services and renovate ground floor main entrance.

CIBC Data Processing Centre

architects **Shore Tilbe Irwin & Partners**
engineers **Manuel Jordao & Associates Ltd.**

Two storey 275,000 sq.ft. office and data processing centre. This \$5.5 million design/build project was ready for occupancy within 5 months.

Chapters book store Festival Hall Toronto

architects **Petroff Partnership Architect**
engineers **Hammerschlag & Joffe Inc.**

Flagship 3 level book store in downtown Toronto with total square footage in excess of 13,500. Part of the same building as Cineplex Odeon Theatres.

Ericsson Communications

architects **Straticon Planning Associates Inc.**
engineers **McDonnell Engineering Inc.**

New two storey sales and marketing offices to the south of the corporate head offices — both buildings are linked by an elevated walkway.

The Globe and Mail

architects **Mayhew & Associates**
engineers **M.C.W. Consultants Ltd.**

Complete renovation to a 158,000 sq.ft. national newspaper. The renovation/upgrade was done in phases to allow the newspaper to maintain daily production without any downtime.

Greater Toronto Airport Authority

architects **Petroff Partnership Architect**
engineers **Hammerschlag & Joffe Inc.**

Single storey multi-use facility for the Greater Toronto Airport Authority. This building is home to central storage, seminar and meeting rooms, emergency service garage and airport canine unit.

Levi-Strauss Canada

architects **Britacan Group**
engineers **McDonnell Engineering Inc.**

Two storey 70,000 sq ft building houses Levi Strauss Head Office and Research & Development. Built by the developer Menkes Inc., it was completed in 1998.

Metronet Communications

architects **Dunlop Farrow Architects Inc.**
engineers **Hammerschlag & Joffe Inc.**

New switching facility for a subsidiary of AT&T, this project included new service from Toronto Hydro, generator/transfer switch, UPS system, plus lighting power to switching equipment.

Metropolitan Toronto Police Forensic Lab

architects **Shore Tilbe Irwin & Partners**
engineers **Crossey Engineering Ltd.**
owners **Toronto Police/Municipality of Toronto**

Renovation of an existing single storey multi-purpose building and a two storey addition makes this state-of-the-art forensic laboratory a welcome addition to the Toronto Police force.

Oland Speciality Beer

architects **Frankland Associates Ltd.**
engineers **Crossey Engineering Ltd.**

Renovation to an existing Heritage building in Toronto. This specialized training and office facility is owned by a major brewery.

Pepsi-Cola Canada offices and bottling facilities

architects **Straticon Planning Associates Inc.**
engineers **McDonnell Engineering Inc.**

This new 96,000 sq. ft., two-storey Corporate Headquarters located in Mississauga has allowed Pepsi-Cola to centralize their operation.

York University

architects **Robbie Young & Wright**
engineers **H.H. Angus & Associates Limited**

Multi-level cast-in-place concrete parking garage at York Lanes, York University was completed for use in January of 1998.
